Formal comments from AF, Navy, Army and State were included in the recommendation package. To our surprise, we received on 22 August written comments on this subject from D/DIA. In essence, GEN Williams supported the establishment of a full MASINT committee; and because of the uniqueness of this collection discipline, he doubted that the SIGINT Committee or its staff could adequately support a MASINT subcommittee. (Copy of GEN Williams' memo is attached.)

- \* We managed to intercept the MASINT package in Executive Registry prior to its going to Mr. McMahon. A copy of GEN Williams' memo has been provided to Executive Registry for incorporation into the package. Mr. McMahon now has a complete package to review.

LATE NOTE: The A/DCI approved the recommendation on 23 August.

- TOR for China Study Working Group--response date: 17 August

- \* We did not receive any nonconcurrences to the TOR from the CIPC principals, collection and production committees.
- \* Most of the interested organizations have identified their respective working group members. (Attached.)
- \* Our next step is to identify a working group chairman so an implementation meeting can be convened.

NOTE: Based upon conversation with some of the organizations, particularly JAEIC and DIA, it appears that an effort to broaden the study effort may be forthcoming.

Some areas of ambiguity were resolved with the [REDACTED] committee and the package now enjoys the joint endorsement of both committees--a first for a [REDACTED] plan. We are asking for DDO and NIO/Narcotics concurrence before sending the whole package to the DCI. In effect, the effort puts the DCI in the forefront of exercising a strong lead on narcotics intelligence collection.
